

## QUALITY, PREVENTION AND ENVIRONMENTAL POLICY

The Management of the group of companies comprising BARRANQUESA establishes the following strategic objectives:

- 1. To foster sustainable growth and innovation across all areas of the business.**
- 2. To promote the well-being, professional development and satisfaction of the people who make up the organization, as well as excellence in the customer experience.**
- 3. To consolidate the company's leadership and reputation as a benchmark in quality, safety, sustainability, social responsibility and equality in the eyes of society and all interested parties.**

To achieve these objectives, the organization undertakes the following commitments:

- **Continuous improvement and regulatory compliance:** To promote the continuous improvement of the Management System, ensuring its effectiveness and adaptability through the rigorous application of the requirements of ISO 9001, ISO 14001 and ISO 45001 standards.
- **Risk- and opportunity-based approach:** To comply with the requirements of customers, suppliers and other interested parties, as well as with all applicable legal requirements, adopting a risk- and opportunity-based approach to ensure the effectiveness of the management system and the achievement of strategic objectives.
- **Safety, health and environment:** To prioritize people's safety and health, as well as environmental protection, by complying with applicable regulations, preventing pollution, eliminating hazards and reducing risks.
- **Resources, training and participation:** To provide the necessary material and human resources, as well as the essential training, information and tools to ensure competence and the active participation of all personnel and their representatives in continuous improvement, environmental protection, and occupational health and safety, with ongoing monitoring of compliance with established objectives.

This policy shall be reviewed annually and updated whenever necessary, and shall always be available to all interested parties.

Manuel Turiel

General Director
